

West Seattle Wayfinding Project: Rolling Community Meeting August 28, 2010

Questions to think about while on the tour:

- Is this location appropriate for pedestrian wayfinding purposes?
- What are the nearby points of interest?
- What should be highlighted about this area?
- How well does the potential kiosk location fit in with the surrounding environment?
- Is there a linkage between the potential kiosk location and local transit service?
- Where in the right-of-way should the kiosk be installed so that it does not impede pedestrian movement?

Kiosk Locations

Wildwood Place (Kiosk #2)

- Location: SW Wildwood Place and 45th Ave SW
- Possible installation site on wide right-of-way, northwest corner of intersection

Notes: Kiosk installation site has already been finalized and sketched for permitting purposes.
